PawnSafe Security

Get Premium Protection with the Flexibility You Need

The Pawnsafe comes in four convenient models to meet your needs. The PS-60, PS-35, and PS-17 offer premium protection in a high security TL-30, six-sided composite safe which incorporates a steel and ceramic matrix on all six sides of the safe. This unified construction achieves the highest degree of burglary protection in its class.

The PS-8 comes in two configurations and offers a high level of protection within the body of a TL-15.

The Pawnsafe series offers robbery protection through advanced time-delay security which thwarts robbery attempts with a time delay barrier system where drawers must be accessed individually to obtain the secured inventory.

Time Delay Security

Drawers can be individually programmed to open from 5 seconds to 60 minutes. Only one drawer can be opened at a time.

Capacity

Uniformly-sized, large capacity steel drawers each hold many envelopes depending on the Pawnsafe model.

Boltwork

The massive 1.5" chrome plated bolts are secured with dual Underwriters Laboratories Group 2M combination locks.

Users

The programmable time-delay system allows electronically controlled access for up to 8 users.

Fire Protection

The safe has been factory tested and has achieved a 2-hour fire rating.

Auditing

Records events on an advanced digital display. One manager code allows management of user access via a 6 or 8 digit PIN number. Eight users have ability to open and close drawers through private PIN numbers.

PS-60
60 times the
protection

PS-35
35 times the
protection

PS-17
17 times the
protection

PS-8
8 times the
protection

4 Models to Meet Your Needs

The PS-8 is placed within a TL-15 safe and is available in a single or double stacked configuration. See the specifications for more details.

Features

Advanced digital locking mechanism

Drawers are each individually programmed to be opened with a time delay of 5 seconds to 60 minutes.

Each drawer holds multiple pawn tickets

Ask about our PawnStep Program

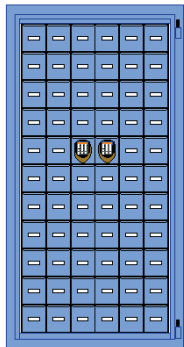

After selling thousands of Pawnsafes and listening to our customers, Rolland is proud to announce a PawnStep program with a multi-year service plan.

Our PawnStep program was developed with multiple size Pawnsafes to meet the growing needs of business owners. Now you can get the premium protection you need and then trade up to a larger safe when you are ready to grow, move, or expand your business.

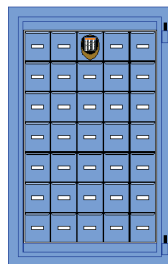

The PawnStep Program allows you to purchase a Pawnsafe, and later upgrade to a larger model with 30-50% trade-in value on the model you already have.

Get the same great quality and features in a premium Pawnsafe in the size you need – when you need it. Call us today and ask for details.

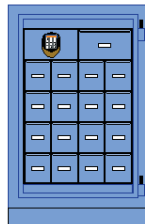

Specifications

PS-60
